🌐 pmg-portfolio

My name is Pol, I'm 25, and I hold a degree in Mechanical Engineering from UPC Manresa. Currently I'm pursuing a Bachelor's Degree in Techniques for Software Application Development at the UOC while working full-time as a Backend Engineer at BackMarket.

I'm ambitious, self-critical, and quick to learn — the kind of person who treats personal growth as a habit. Strong at teamwork and leadership, comfortable in front of people, and genuinely curious about anything new in tech.

Work Experience

Backend Engineer

03/2025 - Ongoing

BackMarket

- Building backend services across Europe's largest refurbished-electronics marketplace.

BMX Teacher · Staff Member · Web Lead

2015 - Ongoing

Motorclub Sant Andreu de la Barca

- Teaching BMX Race for 10+ years, help organize national cycling events and design/build the club's official website end-to-end.

3D Mechanical Design Engineer Intern

09/2022 - 02/2023

Deima Ingenieros

- 3D design of assembly machinery for the automotive industry, collaborating with partners such as SEAT.
